

WORLDPM2018

2018 World Congress on Powder Metallurgy, Beijing, China

Organized by:

The Chinese Society for Metals (CSM)
China Powder Metallurgy Alliance (CPMA)

Supported by:

Asian Powder Metallurgy Association (APMA)
European Powder Metallurgy Association (EPMA)
Metal Powder Industries Federation (MPIF)
Taiwan Powders and Powder Metallurgy Association (TPMA)

Introduction of the Congress

The 2018 World Congress on Powder Metallurgy is organized by The Chinese Society for Metals (CSM) and China Powder Metallurgy Alliance (CPMA). This congress will be held from 16 to 20, September, 2018, in Beijing, China. This congress will welcome the participation of professors, scholars and companies in powder metallurgy industry from more than 30 countries and regions all over the world. This congress will involve diversified topics: metal powder preparation and technology, compression and forming technology, sintering and post-processing, powder injection forming, refractory metal, cemented alloy and ceramics, non-ferrous and rare metals, high content alloy and composite material, porous material, surface technology, magnetic and functional material, additive manufacturing (AM, 3D printing), energy source (lithium battery, fuel cell), bio-medical and other powders, the design and simulation of powder metallurgy parts, analysis, standardization and so on. This congress is expected to produce 500 papers to give a detailed introduction of the latest development of powder metallurgy in the form of speeches and posters through plenary meeting and seminars of particularly targeted topic. Besides, there will also be marketing assessments from famous international experts.

The exhibition will last for 3 days, held at the same locale with the congress. It is expected that more than 200 international exhibitors will take part in this exhibition, which serves as a good opportunity of communication for the suppliers of the upstream and downstream of the industrial chain, manufacturers, professors and experts as well as end-users.

This is the first time for WORLDPM2018 to be held in China, which implies significant meaning for powder metallurgy industry in China. As the most influential industrial activity in this field, the professionalism and high information concentration will offer excellent experience for all of you. We are highly looking forward to your participation.

Highlight of the Congress

It is the first time for this most influential industrial activity to be held in China, which manifests magnificent attraction and cohesion.

This congress will be held with technological seminars at the same time, which could organize the industrial strength of the metal powder and offer an effective platform for interaction.

This congress conforms to the trend of “created in China”, demonstrating the status and influence of China powder metallurgy industry in the international arena.

Exhibition Range

Powder metallurgy material:

iron-based powder, non-ferrous metal powder, pulverization powder, refractory metal powder, stainless steel powder, non-metal powder, lubrication oil and other auxiliary material

Powder metallurgy product:

iron, copper, aluminum, stainless steel base sintering parts, injection molding parts, electrician alloy, magnetic material, cemented alloy, refractory metal, ultra-hard material, friction material, porous material and other products.

Powder metallurgy equipment:

Sintering equipment, forming equipment, mold, powder manufacturing apparatus, atmosphere equipment, band, fireproofing material, analytical equipment, etc.

	Booth Expense Registry in Advance Before 2018-7-15	Standard Registry (on-site) After 2018-7-15
Standard Booth (9 m²)	26000 RMB	26000 RMB
Raw Space (from 36 m²)	2200 RMB/m ²	2200 RMB/m ²

Notes:

The following value-added service will be available with an early registry and payment before 2018-7-15

1. The company LOGO will be presented on the official website, worth 3000 RMB
2. The company LOGO will be presented on the investment document, worth 3000 RMB
3. A full page color advertisement free of charge on the conference magazine, worth 5000 RMB

Standard Booth Configuration

Three coamings, one consult desks, two chairs, one Chinese-English lintel, two spotlight, one power socket of 220V/5A, a full booth carpet.

Raw Space Configuration

Exhibition space without any equipment

The construction could be built by the exhibitors themselves.
